Deep breath

Once again, MemorialCare Miller Children's & Women's Hospital Long Beach has been named as one of the top children's hospitals for Pediatric Pulmonology & Lung Surgery. U.S. News and World Report introduced the Best Children's Hospitals rankings in 2007 and has since become the global go-to source for quality-related information on U.S. pediatric hospitals.

Miller Children's & Women's is the only free-standing children's hospital in California — and only one of 13 hospitals in the nation — to receive the Disease Specific Certification in Pediatric Asthma from The Joint Commission, the leading health care accreditor in the U.S.

"The past year has been a challenging one for children's hospitals, as many patients delayed care due to the COVID-19 pandemic," says Graham Tse, M.D., chief medical officer, Miller Children's & Women's. "In the face of those challenges, our Children's Pulmonary Institute continues to excel and establish Miller Children's & Women's as a regional destination for thousands of children who need specialized pediatric pulmonary care."
